SEARCH ENGINE FOR EXCISE CRIME

Search Engine for Excise Crime(SEEC) is developed by Kerala Excise IT Cell. It is one of the four main primary interactions in the delivery model of e – governance. The vision of SEEC is to maintain crime records of Kerala Excise from 2005 to 2019 and also NDPS crime records of Kerala Police from 2010 to 2020 in paperless mode. It allows the excise officials to view all the entire crime details and accessing benefit eligibility information. It helps to make efficient, transparent and effective functioning of HR related services. It helps to improve Internal efficiency and effectiveness, adopting commercial best practices in government operations.
